

### Impact of growth restriction and market load volume on predicted\* weekly slaughter weights

#### Starting weight of 290

Load Volume (% of normal)	25%			50%			75%		
Average daily gain	1	1.5	2	1	1.5	2	1	1.5	2
PIC Week	Market Weight								
19	290	290	290	290	290	290	290	290	290
20	295	298	301	294	295	297	292	293	294
21	301	306	311	297	301	304	294	295	297
22	306	314	322	301	306	311	295	298	301
23	311	322	332	304	311	318	297	301	304
24	316	329	343	308	316	325	299	303	308
25	322	337	353	311	322	332	301	306	311
26	327	345	364	315	327	339	302	308	315

#### Starting weight of 300

Load Volume (% of normal)	25%			50%			75%		
Average daily gain	1	1.5	2	1	1.5	2	1	1.5	2
PIC Week	Market Weight								
19	300	300	300	300	300	300	300	300	300
20	305	308	311	304	305	307	302	303	304
21	311	316	321	307	311	314	304	305	307
22	316	324	332	311	316	321	305	308	311
23	321	332	342	314	321	328	307	311	314
24	326	339	353	318	326	335	309	313	318
25	332	347	363	321	332	342	311	316	321
26	337	355	374	325	337	349	312	318	325

#### Starting weight of 310

Load Volume (% of normal)	25%			50%			75%		
Average daily gain	1	1.5	2	1	1.5	2	1	1.5	2
PIC Week	Market Weight								
19	310	310	310	310	310	310	310	310	310
20	315	318	321	314	315	317	312	313	314
21	321	326	331	317	321	324	314	315	317
22	326	334	342	321	326	331	315	318	321
23	331	342	352	324	331	338	317	321	324
24	336	349	363	328	336	345	319	323	328
25	342	357	373	331	342	352	321	326	331
26	347	365	384	335	347	359	322	328	335

**\*Note: These are rough estimates and can be influenced by multiple factors. Continue to monitor pig weights in barn as usual**
